Manufacturers Representatives | Technical Link | Engineering Solutions & Support

Medical Engineering Resources-Europe

MER-Europe is a technically focused sales representative that provides engineering solutions, innovative ideas, commitment and reliability for the Medical Device Industry. Our focus is to work closely with our customers, to identify their exact requirements and provide a technical link to the medical manufacturers we represent.

MER Europe strives in providing a wide array of capabilities that are both practical and competitive and one point of contact with continuous support for all your engineering needs.
