

RAPID PROTOTYPING

Speed to Market Guarantee:

Finished Prototypes in Two Weeks or Less

In the race to get new medical devices to market, speed is a crucial component. That is why Specialty Silicone Fabricators offers a rapid prototyping guarantee of two weeks OR LESS. This is the kind of speed-to-market you need if you want to stay competitive, or more importantly, move ahead of the competition.

Six Reasons to contact SSF now:

Product expertise – our diverse and experienced team delivers in-depth knowledge and understanding of complex medical device technologies.

Global access – we operate in more than 150 countries with offices around the world to serve you.

Speed-to-market – providing flexible solutions for manufacturers needing accelerated pathways to global markets.

Confidence – our stringent review process combines speed with experience, integrity, independence and predictability.

Partnership – we work together with you to deliver successful solutions.

Finished prototypes in two weeks or less guaranteed for qualified projects!
