Newsletter November 14, 2011

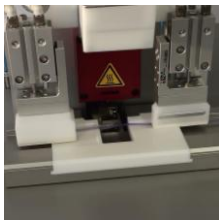

Dear,

MER-Europe's new website is up and running! www.mer-europe.com

Further in this MER-Compamed newsletter

- *Compact shaft/ balloon welding equipment on Compamed booth...*
- *Stellar technologies now represented by MER-Europe..*
- *The cool future of UV Curable Silicone Extrusion*
- *New Stent designs?*
- *CMI obtains CE mark for irrigated EP catheter...*
- ***Meet us and suppliers at the Compamed, Hall 8B stand K09***

News

14-11-2011 | Jurgen de Vries, MER-Europe

Medical

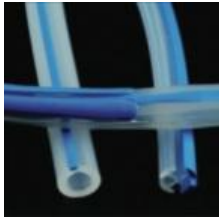

MPT shows latest model of welding equipment at Compamed for all -balloon catheter welds, accurate, stable, robust and cost efficient. Also non contact measurement system... **do bring your own balloons!**

14-11-2011 | Tim Noppert, MER-Europe

Engineering

Precision Machined Components and Assemblies -Stellar Technologies is being represented by MER-Europe. Stellar is known for their excellent quality level and capability to make intricate machined parts of precious metals, Ti grades and.. [read more](#)
