

Covid-19 Statement

March 20, 2020

Sanbor Medical remains committed to providing quality contract manufacturing to all of its medical device customers through this most challenging time. Our factory in China is operating with 100% of its employees. All employees and their families are healthy and none have come down with the Covid-19 virus. Our China factory is located approximately 500 miles from Wuhan in the southeast corner of Fujian Province. The factory continues to implement extensive Epidemic Prevention and Control measures to safeguard all employees and manufactured products. Our suppliers are back to work and orders have been flowing since March 3rd. Our US Headquarters is following all CDC guidelines to prevent the spread of Covid-19 in our communities by working remotely and practicing social distancing. Our support staff is ready and available to serve you via the regular channels. For additional information see www.sanbormedical.com.

Wishing the best for all fighting this battle on every front!!!!

Wayne Meng

President and CEO
