MER-Europe (Medical Engineering Resources) is a technically focused and service

orientated partner to buyers, engineers – anyone in the Medical Device Industry who needs components, assembly services and, or engineering support.

We represent innovative and quality driven suppliers from both the United States and Europe, always trying to facilitate and work with innovative companies that have the potential to make a difference in the marketplace. We are continuously expanding our product range and adding new capabilities.

Our main focus for over 20 years now, is on products for Neuro, Cardio or Radio Vascular applications. Product types can range from Metal Laser Cut Tubes supporting Steerable Catheters to Multi Lumen Silicone Tubing for CRM applications.
