Medical Technology Ireland

21-22 September 2022, Galway Racecourse

Medical Technology Ireland is an event that we don't want to miss.

We are looking forward to catching up with you all at the Galway Racecourse, stand 43... [Read more](#)

K-Tube Technologies

Alloy choices in Stainless Steel Tubing

In the development of medical devices, one of the main challenges is getting the material characteristics right. Specific applications require specific material behaviour.

When working with metal components, one learns that stainless steel isn't 'just' stainless steel. Different alloys have been composed, allowing the user... [Read more](#)

Topsil Global

Moulding Silicone & TPU parts

Looking for clean, very detailed, flashless silicone moulded parts for your medical device? Topsil Global offers silicone moulding out of LSR (liquid silicone rubber), for short term as well as long term implant applications... [Read more](#)

SiMEDEx

Formed Silicone Tubing

[SiMEDEx](#) Engineers are at it again! The silicone extrusion company that MER represents was approached with the challenge of making a formed tube. The shape or form requested represented a sine curve or sine wave. The current product... [Read more](#)

XL Precision

Technologies

One of [XL Precision Technologies'](#) strengths, beside their knowledge and expertise, is that they have a complete range of manufacturing capabilities in house. This allows them to manufacture components and (sub-) assemblies for a wide range of medical applications... [Read more](#)

[MER-Europe](#): **Manufacturers Representatives | Technical Link | Engineering Solutions & Support**

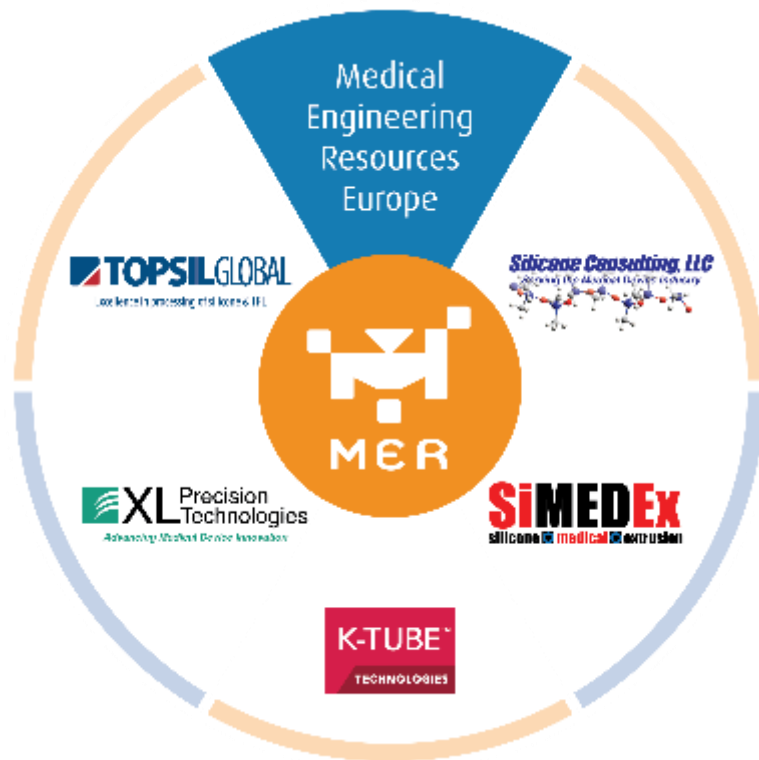

MER-Europe (Medical Engineering Resources) is a technically focused and service orientated partner to buyers, engineers – anyone in the Medical Device Industry who needs components, assembly services and, or engineering support.

We represent innovative and quality driven [suppliers](#) from both the United States and Europe, always trying to facilitate and work with innovative companies that have the potential to make a difference in the marketplace. We are continuously expanding our product range and adding new capabilities.

Our main focus for over 20 years now, is on products for Neuro, Cardio or Radio Vascular applications. Product types can range from Metal Laser Cut Tubes

supporting Steerable Catheters to Multi Lumen Silicone Tubing for CRM applications.
