

## Precision Solutions: Centerless Grinding Services & Supplies

### Precision Ground Bar Products

#### Precision Bar – AccuRod® :

Our signature offering, AccuRod® is the most consistently round, straight and close tolerance bar you can buy. With a wide selection of materials in stock, we can provide precision ground material with minimal lead times. We can also supply precision flats, precision wire and precision tube.

#### BC Medical Grade:

We hold an extensive inventory of medical alloys suitable for medical implants, dental implants, medical device components, and instrumentation.

### Centerless Grinding and Additional Services

#### Grinding Services:

Our grinding services can perfectly complement your own manufacturing capabilities. We offer thru-feed and in-feed centerless grinding on both stock materials and customer supplied materials and components including most metals and some plastics. We can perform bar conversion services to convert existing inventory to a smaller diameter and can also straighten bars and components.

#### Value-Added Services:

Our goal is to help you simplify your supply chain logistics and conveniently source your requirements through a single vendor. If you need additional material services like heat treating, chamfering, or laser marking, Boston Centerless has the capabilities to supply material to your exact specifications.

#### Material Testing & Validation:

All material testing is done in-house and is fully automated. We are a Nadcap Accredited supplier of Ultrasonic Testing (UT), and can also conduct Eddy Current Testing and XRF Alloy Verification.

#### Supply Chain Management:

Let Boston Centerless help you optimize your inventory performance by managing the flow of material into your operations. We offer a variety of programs to select from that will meet the specific needs of your business. Whether you already know which management method you'd like to incorporate or if you need help finding one that's right for you, our supply chain experts are here to offer a seamless integration.

#### SwissAssist:

We know that centerless grinding is just the beginning to produce your precise parts and components. Maximize your CNC Swiss machine and operator productivity with on-site training. Leverage the experience of SwissAssist and have our technical personnel come to your facility to work with your operators with Partmaker CAD/CAM training and CNC Swiss training.

## What sets us apart?

### Unrivaled Precision

Precision is at the heart of everything we do. We provide industry-leading precision grinding services that ensure your bar materials meet the most stringent tolerances. Our highly skilled technicians, working with our state-of-the-art equipment, guarantee that your products are manufactured with utmost accuracy.

### Reliability You Can Trust

Boston Centerless has been a trusted name in the industry for over six decades. Our track record of consistency, on-time delivery, and unwavering quality assurance means you can trust us to meet your demands, no matter how challenging.

### Customized Solutions

We understand that every project is unique. That's why we offer tailored solutions to meet your specific requirements. Whether it's centerless grinding, material testing or inventory management programs, we work closely with you to develop solutions that optimize efficiency, reduce costs, and enhance the quality of your components.

### Advanced Technology

To stay ahead in the ever-evolving manufacturing landscape, we continuously invest in cutting-edge technology. Our state-of-the-art facilities and innovative processes ensure that you benefit from the latest advancements, giving you a competitive edge in your industry.

### Quality Assurance

Quality is not just a goal; it's our culture. Boston Centerless is ISO 9001:2015, AS9100 and ISO 13485 Certified, and our quality control processes are second to none. We ensure that every product we deliver meets or exceeds your requirements, giving you the peace of mind that your bar materials are manufactured with the highest standards.
